## Explanation of Classes

**Seed-Starters (Parent/Pup)**
**Age: Walking to 3 years**

Starting with our little ones- walking until age 3
Our tiny ones navigate our obstacle courses and curriculum, which help develop motor and cognitive skills. Parents/Grandparents/Guardians assist in guiding the learning of basic gymnastics skills.

**Sprouts (Preschool)**
**Age: 3-5 years old**

This class is open to ages 3-5 or developmentally appropriate. Depending on their development through the SEED STARTERS, we will begin working on taking turns, waiting in line, and independent participation in class. Students use obstacle courses to develop motor skills, coordination, and basic gymnastics skills. Students also learn to follow directions and work with others of their own age.

**Seedling (Kindergarten)**
**Age: 5-6 years old**

Class is open to ages 5-6 or developmentally appropriate. Continuing with the Sprout philosophy, allowing students to use the obstacle courses to build the foundation of our Sapling Classes. Our main objective is to ensure the child is physically prepared for the next class while still incorporating FUN and JOY!

**Sapling (Beginner)**
**Age: 6 and up**

Class is open to ages 6 and up (if developmentally appropriate, 5-year-olds are invited to join). Students are placed in groups according to age and ability and taught to perform and perfect basic gymnastic skills on the vault, bars, beam, and floor. Progressions and lead-up skills/drills are very important to the overall success in gymnastics.

***Advancement must be recommended by director/ instructors before enrolling in these classes***

**Tree Branch (Intermediate -Advanced)**
**By Invitation only** **Age: 6 and up**

As the children grow and develop in gymnastics, the fundamentals and building blocks needed to move through the branches of the sport have been established. Directors/Instructors will inform families if this is the best avenue for your child.
